

MIT SCx SUPPLY CHAIN

BOOT CAMP

MONDAY, JULY 30-FRIDAY, AUGUST 3
MIT BUILDING E62

WHAT IS SUPPLY CHAIN BOOTCAMP?

The MIT SCx Supply Chain Bootcamp is an intensive, highly interactive executive education program that will build upon the learning experience of the SCx learner. In the Bootcamp, learners will put the SCx concepts to work just as managers and executives would do within the firm – using the tools and analytics to make critical management decisions regarding the supply chain and the business. The program will expose learners to some of the current and broader supply chain management challenges. **This program is specifically designed for, and only open to SCx learners!**

WHO CAN PARTICIPATE?

Bootcamp is open to SCx learners who have successfully completed a minimum of 3 SCx online courses from among SC0x, SC1x, SC2x, SC3x, SC4x as Verified Students.

SEATING IS LIMITED! REGISTER TODAY: CTL.MIT.EDU/BOOTCAMP
